

IN-FLOOR CLEANING
& CIRCULATION

G4V

VENTURI POWER

The next stage of automated cleaning and circulation.

Pentair G4V is a revolutionary new cleaning head technology that incorporates the power of venturi with a proprietary flow path design that will change the way you circulate and clean your pool. Available on new pools, this technology can also be used to update existing systems.

G4V

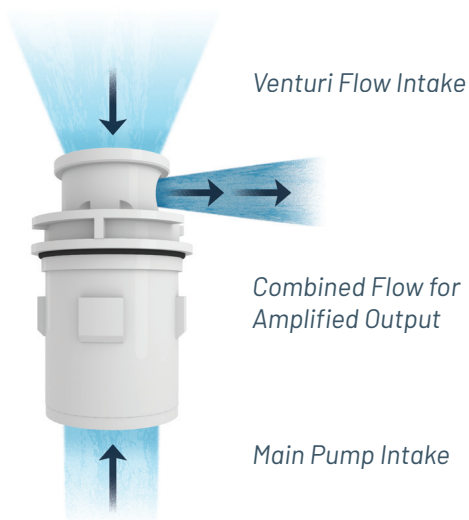

VENTURI POWER

The next stage of automated cleaning and circulation.

Enjoy more time in the pool and less time cleaning with an intelligent in-floor system that scrubs surfaces and sweeps debris on its own.

Pentair G4V cleaning head harnesses the power of venturi technology to help improve your system's cleaning capability. As your pump drives water through the nozzle, our proprietary venturi head design creates a vacuum which generates additional flow strength, augmenting your cleaning power at no extra cost.

- Can lower energy costs
- Allows pool to circulate water and properly clean, even at reduced pump speeds
- Helps ensure a more even dispersement of chemicals
- Directs water to the pool floor for a more even temperature
- Reduced maintenance needs
- Wider coverage than standard cleaning heads
